Call for participation in WG1 and WG2 meeting

25 May 2014 Hersonissos, Crete, Greece

Dear Work Group 1 and Work Group 2 members:

We would like to announce the first call for participation in WG1 and WG 2 meeting to be held on the May 25th in Aldemar Royal Mare resort in Hersonissos, Crete, Greece (co-located with ESWC 2014).

If you are interested to participate in the meeting, please submit a brief application containing the following information:

1. Your name and contact details
2. Short abstract of your current research related to the WG1/2 topics (1 paragraph)
3. Topics of interest you would like to discuss during meeting: please select 2-3 topics from the list below, additional suggestions of topics are possible.
4. WGs you participate in. If you are joining for the first time, please make sure you officially joined KEYSTONE COST Action at: <http://www.keystone-cost.eu/keystone/how-to/join-keystone/>
5. Status of your research carrier (number of years since the completion of PhD / or PhD student)
6. Previous WG meetings you already participated in (e.g. in Leiden)
7. Country of residence
8. Gender (the COST rules require gender balance)
9. Estimated travelling costs (just a rough estimate of the flight costs and the dates you plan to travel is sufficient)

Number of available travelling grants are limited. Early stage researchers are welcome.

Applications should be submitted via the EasyChair system: <https://www.easychair.org/conferences/?conf=keystone2014eswc> The deadline for the application is 14.04.2014. You will get a notification shortly after this deadline.

The topics of interest for the meeting include in particular:

1. Representation and analytics of structured data sources

2. Analytics of structured data sources in the context of query routing and search
3. Scenarios of interactions for improvement of keyword based retrieval
4. Linked Data: federated keyword search, mining and preservation
5. Semantic keyword search in structured data
6. Aspects of semantic keyword search in big data
7. Collaborative search for learning scenarios
8. Privacy aspects of keyword search
